

Forschung - Fortschritt - Förderung  
**KARL LANDSTEINER GESELLSCHAFT**  
Verein zur Förderung Medizinisch-Wissenschaftlicher Forschung

## Concept

The Karl Landsteiner Society is an independent non-profit, non-governmental medical research association organized in self-contained institutes

## Research

- We promote creativity in small **research groups**.
- The **independence** of our institutes is regarded as paramount.
- A high quality-level is guaranteed by the establishment of defined goals and a **concomitant validation**.

## Progress

- Our work focuses on the **patients**.
- For our institutes we provide a **basis for networking** to enhance interdisciplinary research projects and international cooperations.
- A high practical orientation is warranted by the proximity of our institutes to **practical medical work**.

## Promotion

- We promote our institutes in all administrative concerns and the acquisition of **new funding resources**.
- **Transparency** is an absolute prerequisite for all our activities.
- We promote the work of young researchers to aid in the development of their **personal careers**.
